Solving the Performance and Elasticity Challenge

turbonomic

“Humans are allergic to change. They love to say, "**We've always done it this way.**" I try to fight that. That's why I have a clock on my wall that runs counter-clockwise.”

— Grace Hopper

Always start by asking “why?”

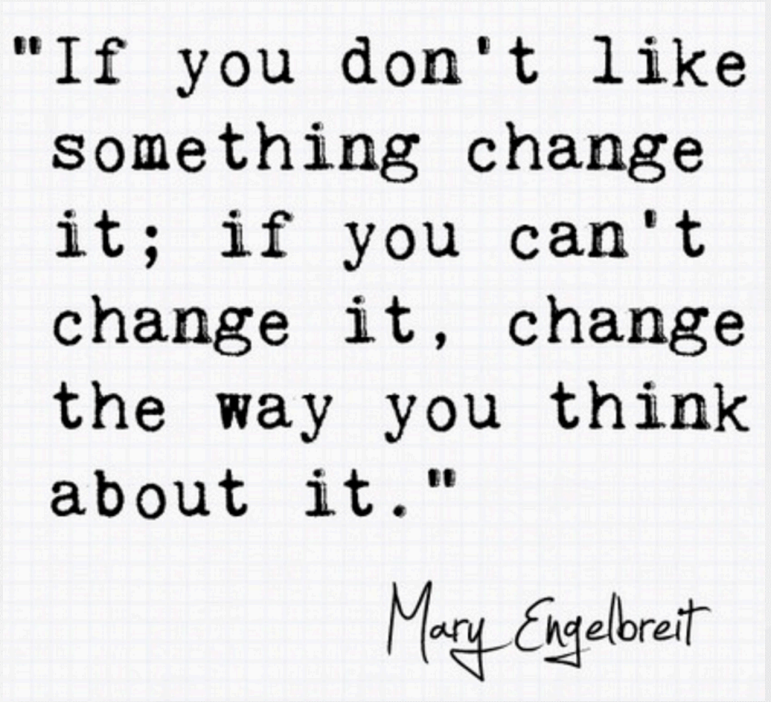
The First Challenge of IT Operations

Global
HD

The fundamental challenges of IT operations and workload performance can only be solved by software.

Opportunities for embracing change

- Software-defined infrastructure
- Abstractions at all layers
- Full stack engineers need full stack solutions
- Moving from reactive to proactive
- Make you better at IT = win!



How does Turbonomic solve this?

How Turbonomic Works …

API-Driven

Agentless

API-driven software solution

Data Model

Discovery

automatically populates a rich, extensible data model

Analytics

Insight

that determines insight and action

Automation

Marketplace

and automatically (or manually) executes the actions based on application demand and infrastructure supply

Real-Time

Tradeoffs

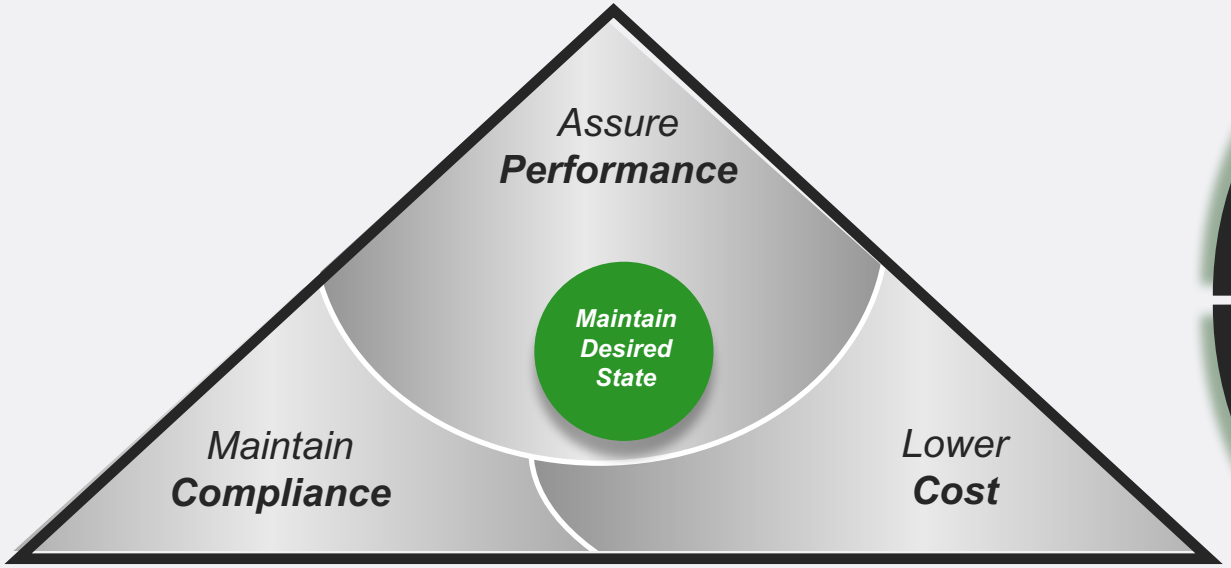
to deliver the desired state In real-time.

What Turbonomic Does …

Lower Cost

Assure Performance

Maintain Compliance



Activating Your Hybrid Cloud from *Assess* to *Plan* to *Optimize*
